

# POWER ON ANYTIME, ANYWHERE

MCE NETWORK & INDUSTRIAL POWER

Mission Critical Electronics (MCE) represents a platform of distinctive brands and products focusing on industrial electronic and electrical applications where durability, reliability, and performance in hostile environments is essential. Its Network and Industrial Power Division includes the leading brands: American Battery Charging, DuraComm, Newmar, and Power Products Unlimited.

These brands are focused on critical system applications in DC control, standby and battery power for rail, telecom and wireless networks, infrastructure, manufacturing, oil and gas, emergency services, public safety communications and more.

### **TECHNICAL EXPERTISE**

MCE's engineers use the voice of the customer to ensure they design the right products for ever evolving and growing markets, working with them to develop the best solution for each project.

### **QUALITY ASSURANCE**

When it has to work, when it cannot fail, MCE brands are the names to be trusted. MCE has exacting quality standards that make its products the recognized industry standard for reliability.

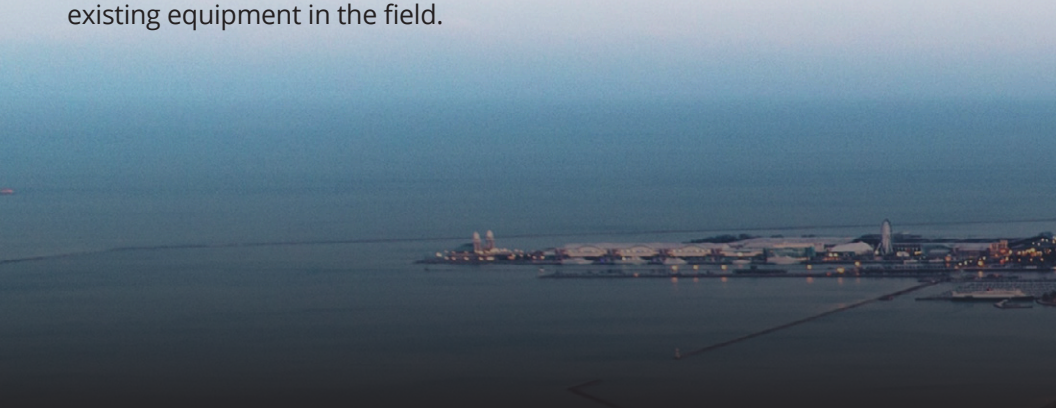

### **SALES & CUSTOMER SUPPORT**

MCE has dedicated sales, customer, and technical support staff available to help customers choose new products or provide support to existing equipment in the field.

### **FULFILLMENT**

Production operations are tailored to provide customers with the shortest lead times while still maintaining the strictest quality standards.

American Battery Charging is a leading manufacturer of high-performance battery chargers for railroad and other industrial applications. Since 1988, ABC has provided reliable battery charging solutions for passenger trains, gas turbines, oilfield services, utility substations, and industrial controls.

## **STATIONARY BATTERY CHARGERS**

- Chargers for standby DC power systems
- Single or three-phase options
- Solid state, automatic, and fully current limited

## **RAILROAD BATTERY CHARGERS**

- Three-phase railroad chargers
- Rugged and reliable
- Options to mount in equipment locker or under the car

## **BATTERY CABINETS AND ENCLOSURES**

- Fully customizable cabinets
- Meets NEMA-1 or NEMA-3R standards
- Perfect for remote locations - protected from most elements with minimal points of failure

Newmar has been a leading manufacturer of reliable and high-quality communication power products for over 50 years, offering an extensive line of AC and DC power supplies. Newmar powers essential equipment for network communications and telecom & public safety, providing solutions for both indoor and outdoor applications.

DuraComm, with over 30 years of experience, offers a complimentary line that provides a variety of offerings from simple desktop units to sophisticated rack mount battery management systems.

## PRODUCT OFFERINGS

- Remote Monitoring & Control
- Telecom Rectifiers
- Battery Chargers
- AC to DC Power Supplies
- Power Supplies with Built-in Battery Back-up
- Telecom Power Distribution Panels
- Complete Communication Power Systems
- DC-DC Converters
- Inverters
- Desktop Power Supplies & Radio Hoods/Accessories
- DC Power Conditioners and Filters
- Power Enclosures
- Electronic Installation Accessories
- Power System Components: Distribution Panels, Low Voltage Disconnects

## CUSTOM SOLUTIONS

Newmar and DuraComm's engineering team takes an "off-the-shelf" approach to satisfy unique customer requirements, providing fast-turn designs and prototypes so target installation dates can be met in a timely and cost-effective way.

PPU has spent over 30 years earning its reputation for offering high-quality two-way radio batteries, chargers, accessories, and exceptional customer support.

## POWER PRODUCTS OFFERS A VARIETY OF BATTERY TYPES FOR ANY INDUSTRY:

- **Intrinsically Safe:** Certified by SGS to TIA-4950/CSA C22.2 No. 157/UL 913 5th Edition standard for intrinsically safe and non-incendive use
- **Smart & Semi-Smart:** Compatible with the IMPRES™ 1 & 2 to offer all the features of a Motorola smart battery
- **High-Capacity (LiPo) Batteries:** Best-in-class batteries powered by PolyMax HPC LiPo cells
- **Primary Lithium:** Made for single-use and disposal, available in several models for Motorola, Harris, and Kenwood
- **Clamshell:** Designed to allow a radio to be powered with AA alkaline batteries during power- or fire-related emergencies

## ENDURA TWO-WAY RADIO CHARGERS

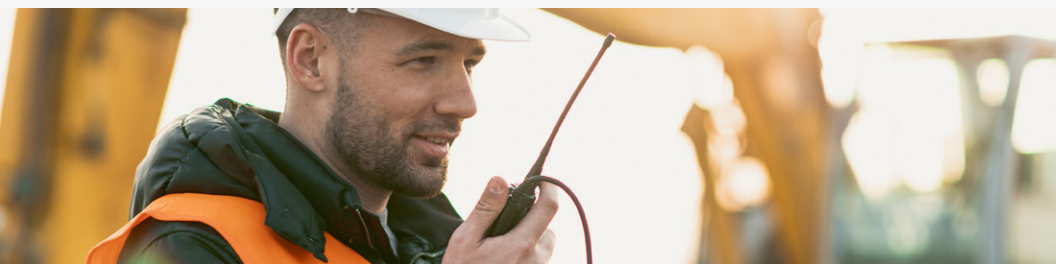

Endura chargers come in single and multi-unit models, for either in-vehicle and modular desktop chargers, and are compatible with Li-Ion, LiPo, NiMH, or NiCd batteries based on pod or charger model.

- In-Vehicle Charging Solutions
- Desktop Chargers
- FOCS (Field Operations Charging Station): Fully customizable mobile solution for mission critical operations

## ENDURA TWO-WAY AUDIO ACCESSORIES

Endura audio accessories include speaker mics (with private label options), surveillance kits, earpiece headsets, and replacement accessories available for several radio models.

- Motorola
- BK Technologies
- EFJohnson
- Hytera
- Harris
- L3Harris
- Icom
- Kenwood
- Tait
- Vertex
